

Pipe Welder-Pipe Fitter

ABOUT US:

JDI Industrial Services is the industrial maintenance division of J. Davis Inc., a family owned organization providing construction, grading, supplemental maintenance, and industrial services to South Carolina, Georgia, and North Carolina. With four divisions and three offices in the coastal and upstate regions of South Carolina, we are proud to offer superior services to the southeastern United States.

While our tenure in the industry began in construction, our history to deliver on time and on budget while under pressure has opened the door to many industrial service opportunities. Landing our first full time maintenance support contract in 2013, we are now serving the construction and industrial needs of more than 38 industries.

Now, with over 140 qualified craftsman, superintendents, and project managers on staff, JDI is a versatile industrial service provider enhancing manufacturing environments by implementing effective industrial management programs and initiating critical building projects. Overall, we help our industry partners maintain process control and accomplish production goals by increasing reliability, reducing risk, and ultimately saving cost.

With a wealth of resources and the goal of better serving our clients, we are passionate about people, eager to serve, and thrilled for what the future holds. Join our crew and contribute to something great.

POSITION SCOPE:

We are looking for individuals with specific experience as a pipe welder or pipe fitter. Must be proficient with welding process (STICK, TIG, MIG) and versed with multiple materials of pipe (Stainless, Carbon Steel, etc). Welding certifications in pipe is a plus.

Industrial Services Crew Members are multi-craft individuals, having abilities which qualify them as industrial carpenters and/or industrial millwrights.

ESSENTIAL JOB DUTIES & RESPONSIBILITIES:

- Responsible for working safely and being mindful of safe working conditions for yourself and those around you
- Perform work according to scope as laid out by a foreman and/or superintendent
- Put forth the effort in every task to ensure adherence to J. Davis quality standards
- Correctly operate and properly maintain tools and equipment
- Identify materials, equipment and supplies necessary to perform tasks
- Properly and safely operate various tools such as saw, grinder, welder, torch, etc.
- Operate and work from scissor lift, aerial lift, scaffold and ladders

AREAS OF EXPERTISE:

- Must be able to read a tape measure and level
- Familiar with basic carpentry and fabrication means and methods
- Read and understand blue prints, shop drawings or diagrams
- Experience in Industrial environments

COMPANY EXPECTATIONS:

- Maintain Company Mission and Core Values
 - Mission
 - “We are providers of superior, passionate service leaving a positive impact on everyone we involve, while bringing honor to God.
 - Core Values
 - R.I.S.E – Respect, Innovation, Safety, Ethics
- Contributes to a Positive Company Culture
- Superior Work Ethic
- Meticulous about Quality
- Consistently Meets Project Deadlines
- Takes Initiative to Meet Department Goals
- Participates in Company Meetings
- Capable of Working Autonomously but a Team Member Above All
- Able to Quickly Switch Gears in a Fast-Paced, Spontaneous Environment
- Excellent People Skills

REPORTS TO:

- Superintendent or Foreman

SUPERVISORY RESPONSIBILITIES:

EDUCATION & WORK EXPERIENCE:

- Minimum of 5 years' experience working on CNC Controls, troubleshooting and repair
- Must have history of working safely and following safety guidelines
- Must be able to verify successful work history including references from previous employers
